Minutes– NDCC Steering Committee Meeting January 27, 2021		
	<ul style="list-style-type: none"> ○ Present 15-20 minutes ○ Topic is flexible and should focus on melanoma treatment, survivorship, screening etc. 	
COVID and Cancer PSA with KAT Marketing	<ul style="list-style-type: none"> ● PSA to address cancer as a broad topic (i.e. as opposed to focusing on one diagnosis) ● Also, focus to be on the personal side of the cancer journey ● Volunteer (Denise) to talk about her reasons for making screening and awareness a priority in her life. ● PSA ready by the end of February and will be shared 	
UND Survey	<ul style="list-style-type: none"> ● Survey to address primary care providers and explore potential knowledge gaps in skin cancer screening and management. ● Survey administration delayed because of COVID-19 constraints. ● Coalition plans to use results to inform future work. 	
Social Media toolkit March CRC Awareness Month	<ul style="list-style-type: none"> ● CRC Toolkit was revised and upgraded last year and now includes stories from survivors, providers, and others. ● Shannon mentioned that USPSTF is nearing completion of its data review and will announce their conclusion soon. ● If USPSTF lowers screening age to 45, we will tweak the CRC Toolkit as appropriate. 	
Meeting cadence/2021 meetings	<ul style="list-style-type: none"> ● Exec Team consulted with other Cancer Coalitions and found that others did not meet as often. ● Change for 2021 is to meet quarterly for Steering and once annually for all-member. ● Note that this allows for flexibility in asking for ad-hoc meetings to address current projects.
